ABOUT ME

I am a studious and team player who have a strong passion with a demonstrated history of working in the computer software industry. Speaking from my humble experience, I would consider myself a lifelong learner who always seeks methods to achieve my goals. With the ability to work in a difficult setting, I have the confidence to take on difficult tasks and am willing to correct my mistakes.

SKILLS

Programming Skill: Have an ability to design a website using ReactJS and NodeJS at starter level.

Communication Skills: Have good communication abilities, an attitude to contribute, and a thirst for knowledge.
